

# The Buzz Club

## Real Gardens - Real Science

Citizen science club, run by scientists at the University of Sussex.

*Director - Prof. Dave Goulson*

- The Buzz Club creates experiments that help us understand the wildlife we share our gardens with, and what we can do to conserve it.
- Volunteers all over the UK help us to answer these important questions.
- This year's projects include **Air Bee & Bee**, **The Big Bee Hotel**, **Bees & Heatwaves**, **Hoverfly Lagoons**, **Ladybird Local**, and **Earwi'GO!**
- Anyone can get involved – visit [www.thebuzzclub.uk](http://www.thebuzzclub.uk) for more information.
- **Beam Gardening Society** has a **local facilitator** to advise our members and to help our **Young Gardeners** with their Buzz Club projects. If you would like to join in, email John at [secretarybgs100@gmail.com](mailto:secretarybgs100@gmail.com).

Many thanks to **Lydney Park Estate Sawmills** for supplying the wood for our bee hotels.
